4" Encapsulated Hermetical Sealed Canned Motors

Encapsulated Hermetically Canned Submersible Motor is developed with market expectation to meet robust construction and stringent requirement for Deep Well application both 4" & 6" encapsulated motors, manufactured in ISO 9001 for dependable operation in 6" diameter or larger water wells. Water lubricated thrust and radial bearings enable a maintenance free operation. A Reinforced netted Nylon diaphragm ensures pressure compensation inside the motor. Carbon ceramic seal system is standard.
